

# IT STAFFING

IT contract resources to help your business move forward efficiently and effectively

Stefanini TechTeam provides the IT contract resources you need to implement crucial projects, handle short-term assignments, or to fulfill long-term placements. Our staffing services free you from the challenges of finding, recruiting, training and retaining high-quality professional staff, and allow you to focus on managing your business growth.

We provide the ongoing skill development to ensure that professionals placed at your site are trained in leading technologies to support your information technology hardware, software, and network infrastructure. Augment your staff for short- or long-term engagements, or for specialized expertise on specific projects.

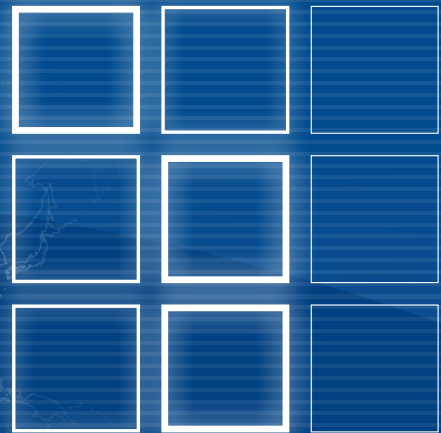

We have more than 40 years of industry knowledge and technical expertise, and provide you with superior candidates precisely matched to your technical and professional environment.

With 13,000 employees in 27 countries around the world, our global team is experienced in supporting Fortune 1000 enterprises around the world and in multiple industries. Rely on Stefanini TechTeam for comprehensive solutions, proven experience and continuous innovation.

*Stefanini TechTeam delivers highly trained professionals on a contract basis to support your information technology needs, from application development to service desk staffing.*
